

Emerging Circuits and Computation (ECC) Group at ITU

Master, PhD, and Post-Doc positions available within the [TUBITAK and European Union H2020 projects](#) on the areas of “Circuit Design and Fault Tolerance for Emerging Technologies” and “New Computing Paradigms including Stochastic/Approximate Computing”.

- Candidates are expected to have a background in **electronic circuit/system design**.
- Researchers to be hired, will be supported by our [EU H2020 project NANO×COMP](#) through **visits, internships, and collaborations**.
- Post-Doc candidates are expected have a strong publication record, especially in the area of **computer-aided design of digital circuits**.
- Check our web site www.ecc.itu.edu.tr for our group and project details.
